Animal Tracks

Some animals drag their tail and have big feet, while others have padded paws and claws, or webbed feet. Here are some Australian animals.

Can you guess which animal left which tracks?
Match each animal to its tracks. Draw a line to the correct tracks.

Kangaroo

Dingo

Platypus

Emu

Koala

Eastern Rosellas

The Eastern Rosella is a bird native to southeast Australia. It grows to about 12 inches long. This bird has brightly colored feathers, and is sometimes kept as a pet. The Eastern Rosella is an intelligent creature: It can be trained to whistle a wide range of tunes, and may even learn to speak a few words or phrases!
